CH (chorus) Wall words/ Flashcards

No wonder English is so difficult to learn – we teach kids that CH says 'ch' as in church – until it doesn't (sigh). This pack will give your class practice with CH words that make the 'c' sound.

The flashcards are roughly in order of difficulty. Most words in which the 'ch' phoneme makes the 'c' sound are relatively tricky, and there weren't any obvious 'type of word' groupings to put these words into.

Hopefully these cards will still be a helpful way to introduce the new sound that CH can sometimes make, as well as providing a resource children can use for their various phoneme tasks throughout the week.
