

Christmas 'Ornaments' to Colour

**DECORATE YOUR CLASS
CHRISTMAS TREE**
(without worrying about
ornaments breaking!)

Christmas Colouring

There are 2 different versions of the Christmas ornaments:

- The first version has a plain, rectangular border. This allows the tracing/colouring words to be slightly larger.
- The second version has a border that can easily be coloured in Christmas colours. The tracing/colouring words in these 'ornaments' are slightly smaller.

There are also 2 versions of the colour Christmas ornaments. Essentially, the first version requires more colour ink, while the second version will be kinder to your printer!

In my class, I printed out and made the colour versions of each of the ornaments to use as examples. The children looked at them to get an idea of what colours to use, etc.

The circle at the top of each ornament is a guide to allow easy hole-punching. I then had the children thread ribbon through the hole and tie it to make a loop.

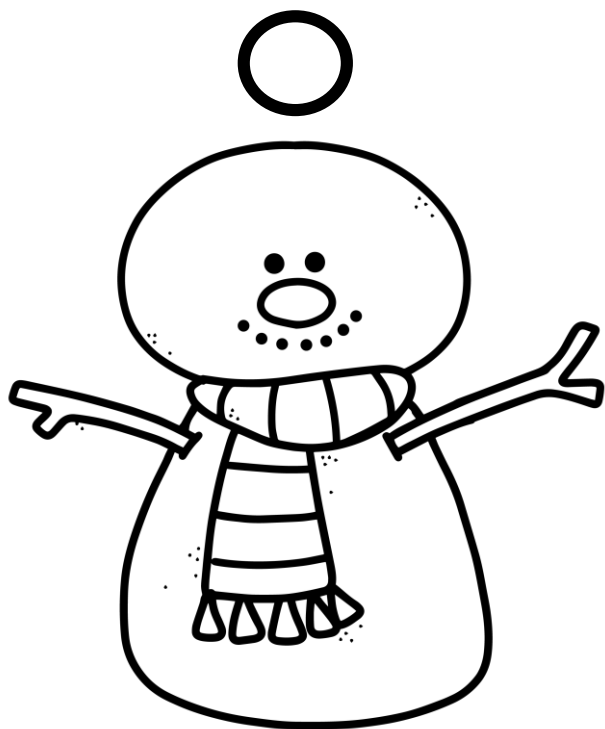

I laminated the 'ornaments' for durability (with the child's name and the month/year on the back), and we hung them on our class Christmas tree. The kids loved decorating their own tree, it was easy, and if anything was ripped/broken, it wasn't the end of the world (but laminated, these ornaments are surprising durable!).

It also gave an extra Christmas ornament or two to send home at the end of the term. And with a name and date on the back, these make nice keepsakes for parents.

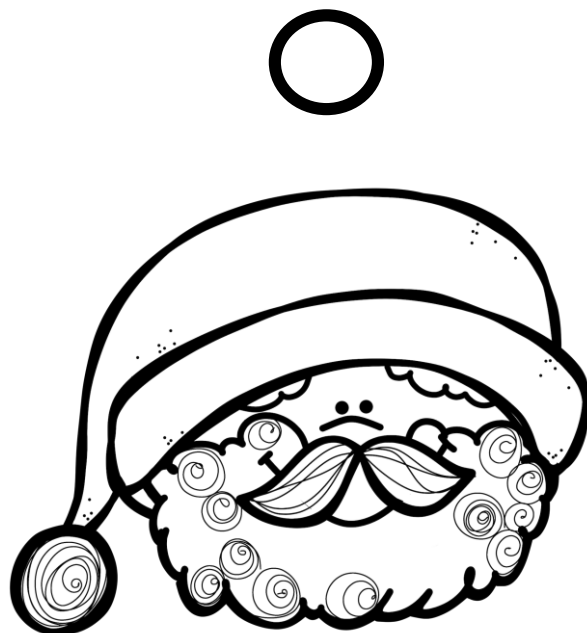

At the end of the file, you'll also find 2 different versions of some Christmas colouring sheets.

Happy Christmas!
