## E-E Wall Words/ Flashcards

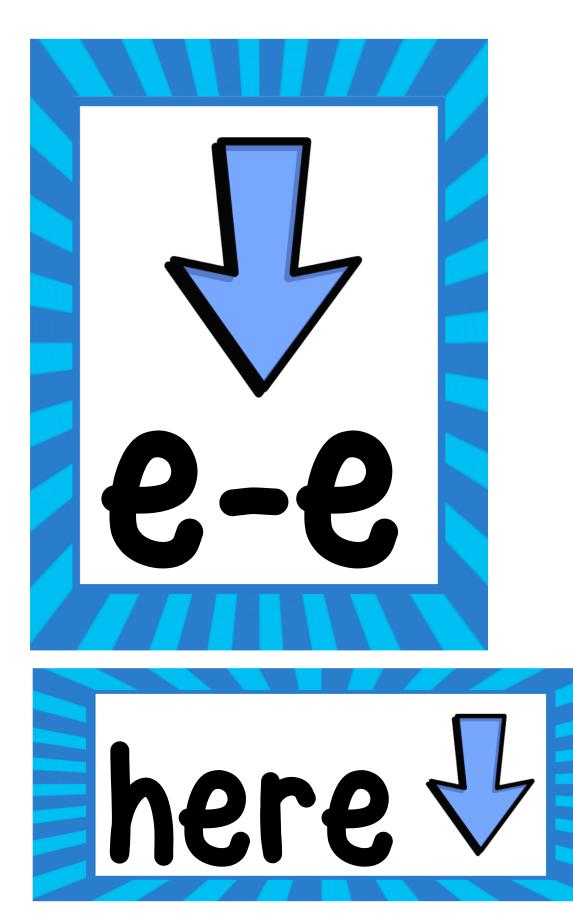

I use these flashcards to introduce our new phoneme for the week. Then they go onto our 'Word Wall' to create a growing literacy resource for the classroom. Hopefully you will find them useful as well!

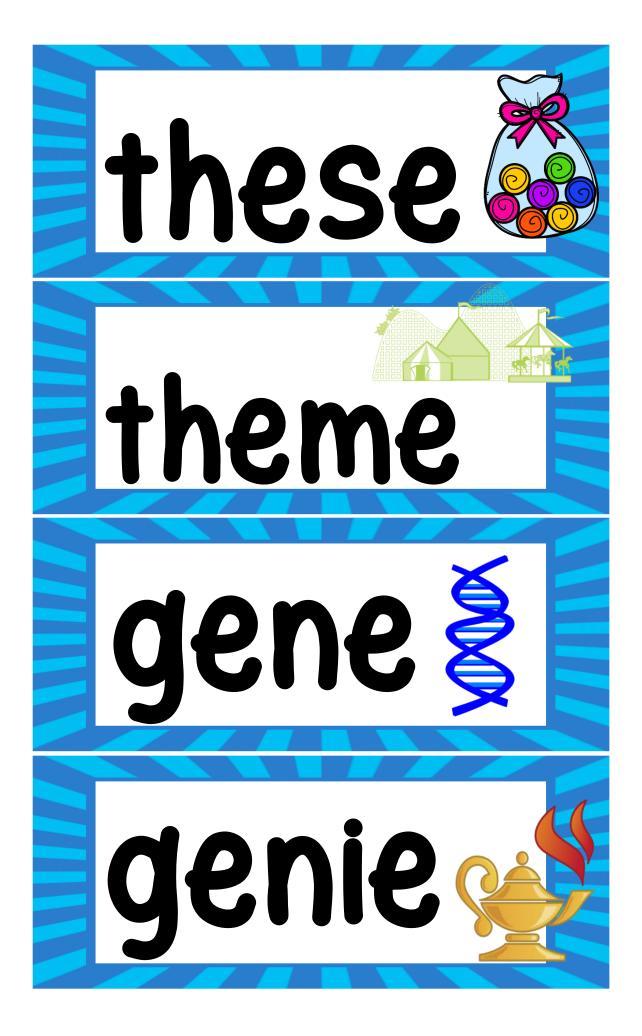

E-E words are trickier to find and illustrate. These flashcards are organised (roughly) in difficulty order, with the first 5 being more straightforward than the following 8. Of the 8 trickier words, 4 are illustrated and 4 are not. If you use them all, these would need to form the basis of some vocabulary work, I suspect.

If you can think of any easier E-E words, do let me know!
