# Grouping Phonemes

This is a bit of a funny group of phonemes – I don't think of OY, OA and QU going together naturally!

I've grouped them this way because they are all reviewed together during Week 4 of North Lanarkshire's Active Literacy Stage 2 phonics programme.

So if you are using Active Literacy, this will be perfect for you (along with the CK and AI files – those are also reviewed during Week 4). If you are following another programme, I hope these flashcards are still useful, even if the grouping is slightly odd. 😊

# Picture Flashcards – OY

Words with the OY sound are harder to find than you would think! This set of picture flashcards has fewer words than most other sets. They are still (roughly) arranged in difficulty order, although because of the small number of words, there are not really 'groups' of different word types to use as the focus of a mini-lesson.

At the end of the OY words, I've included a few with 'oy' in the middle. This is unusual – OY is usually found at the end of the word. Oyster and royal are exceptions, but most words with OY in the middle have a base word like 'employ' and then a word ending added on (employer).

Hope these are useful! Feel free to post on my blog and let me know how you use these in your own classroom – I'm always looking for new ideas. 😊

# Picture Flashcards –

## OA

The OA phoneme is much more common than OY, so you will be able to use these differentiated flashcards more effectively, I hope.

I have included:

- 8 simple OA words (coat, boat, goat, road, toad, soak, coal, foam).
- 3 words with beginning or ending blends (toast, coast, float)
- 4 OA verbs with the 'ing' ending (toasting, boating, soaking, foaming)
- 4 compound OA words (coastline, sailboat, rowboat, raincoat)

Use as many or as few as are appropriate for your class. For the compound words, all of the base OA words are included, so you can easily include a mini-lesson on compound words using these flashcards.

# Picture Flashcards – QU

Words with QU are similar to the OY words - there aren't many of them that are accessible for our youngest learners. However, I've managed to find 9 different 'QU' words, and they are arranged in (roughly) order of difficulty.

Hope these are helpful at teaching and/or reinforcing the 'QU' phoneme for your class.
