# Quick Images Dot Cards – Teen Numbers

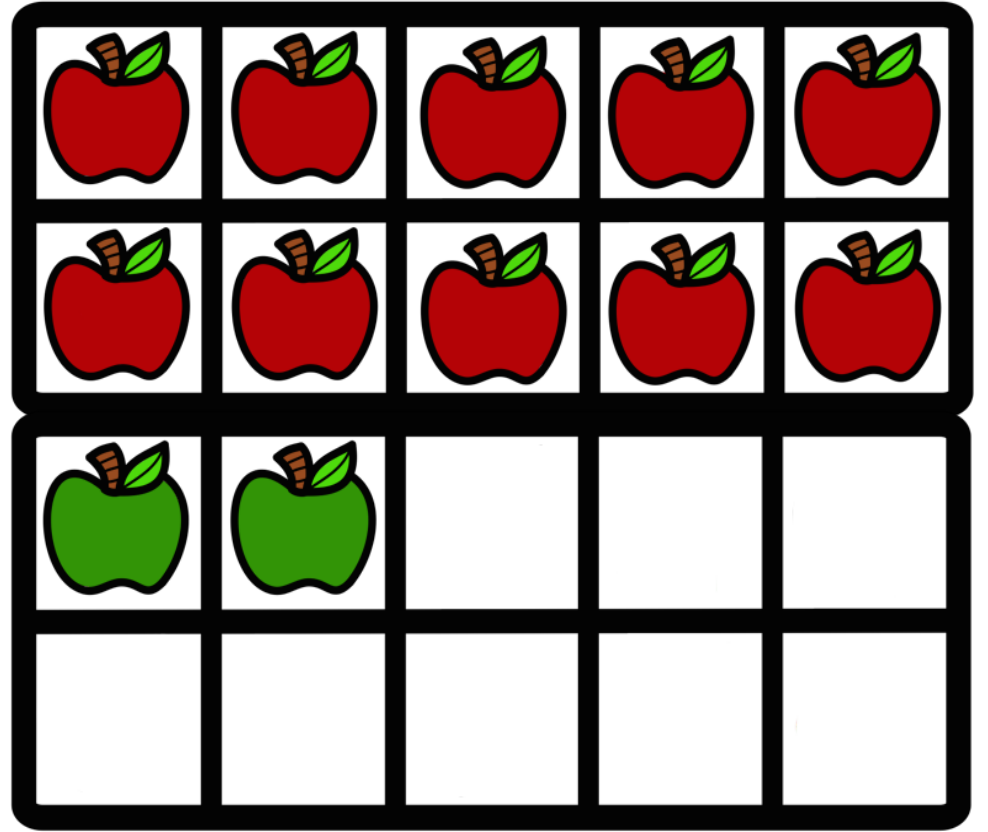

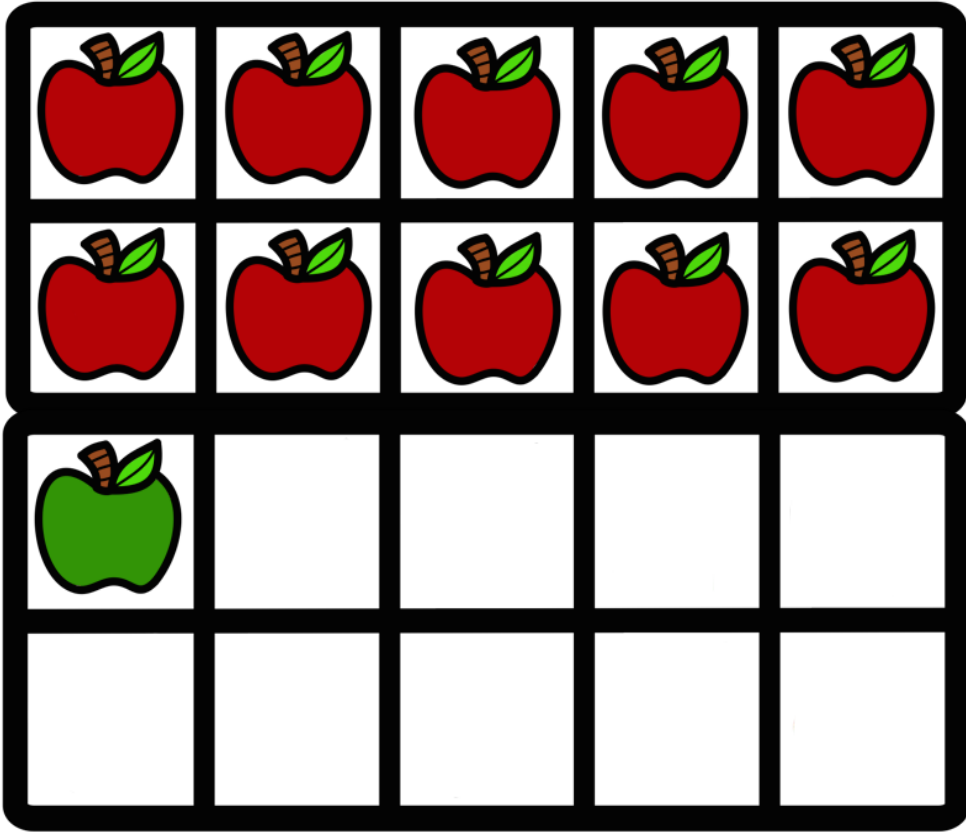

When I taught PI, my class loved shouting out the teen numbers they saw when I showed them the following teen number 10 frames briefly. These cards are great for reinforcing the idea of, for example, '1 group of 10 and 5 extra ones makes '15'.

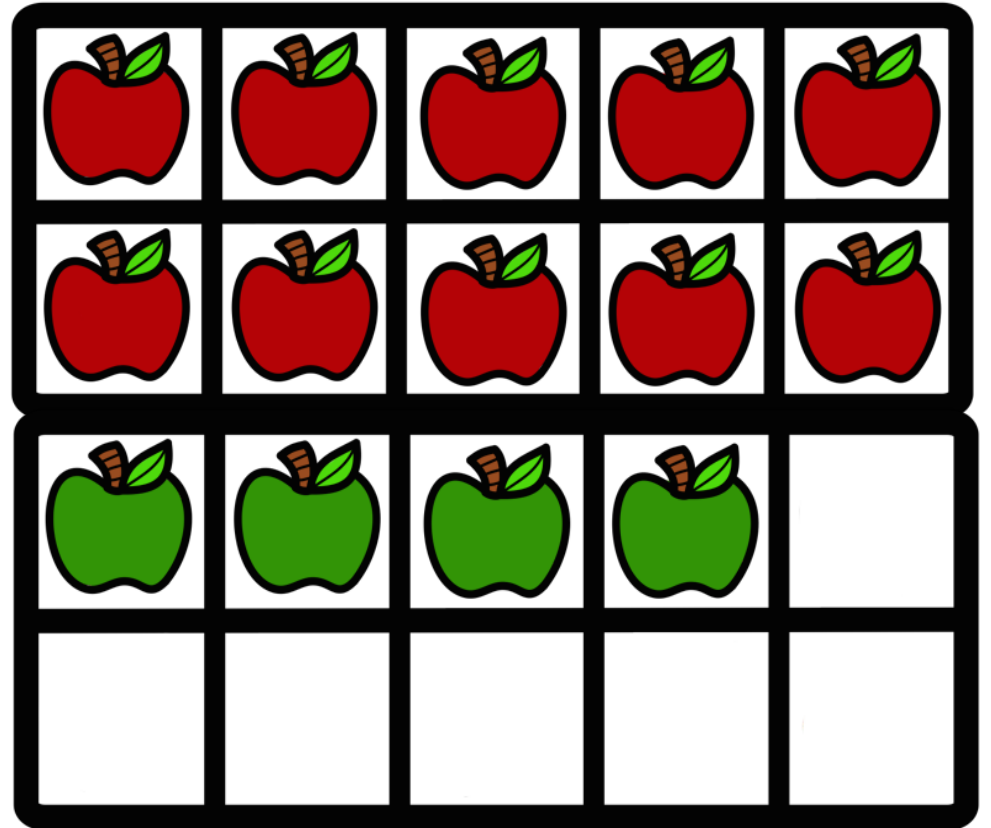

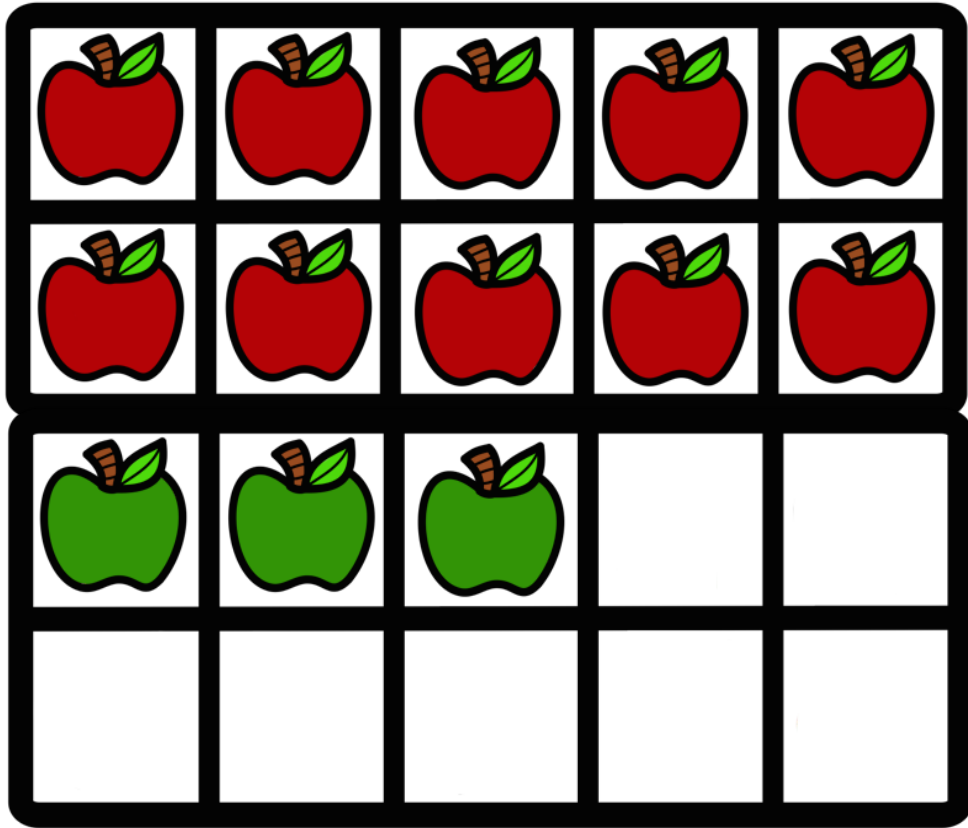

Harry Kindergarten has some great number-related videos on Youtube, and his teen number video was one of our favourites:

These cards are also found in my Early Years Number Talk Starter Pack, so if you have printed them out from the Starter Pack, you won't want to print them out again!
