TH and NG Wall Words

I use these wall words as flashcards when I introduce a new phoneme/digraph – after we read each word together as a class, the word card is transferred onto our Word Wall (there are always many children who want to help with this!).

The words are then available as a reference throughout the week (and beyond), as children are given different tasks each day related to their phoneme/digraph for the week. I'm hoping to eventually add some of those tasks onto this file (check back!).

I hope these save you some time and you find them useful and colourful! Please let me know how you use them in your own class, or if you have any problems opening and/or printing them out – I'm new at this. 😊
