Word Wall Words – IE as in tried

This is a bit of a funny phoneme. There are only 4 words that have IE making the long I sound at the end (pie, tie, die, lie) – the first two are included in this pack.

Otherwise, the IE phoneme is created when you add an ending to a 'y' word (fly-flies, cry-cried, etc). So that is how I have made these flashcards – to highlight the spelling rule when you have a 'y saying I' word.

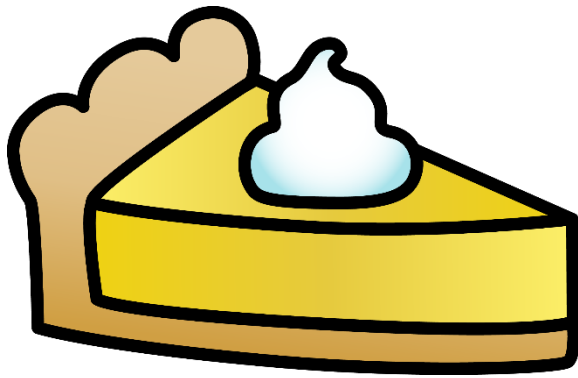

The words included are:

- fry
- dry
- cry
- try
- spy
- fly
- Sky

Hope these are helpful!
